## PROJECT

### WEB APPLICATION

Truba ERP | January 2022 - March 2022

Web based Application. Build to manage ERP for a college include Student Account to Employee Payroll. Here are some key notes Students Management, Faculty Management, Employee information system to maintain employee records personal details and contact information. Accounts receivable/payroll handle invoices payments and outstanding dues.

- Taught end users to navigate ERP system by developing and presenting training sessions.
- Supported smooth launch and user experience through functional end user testing and interface testing.
- Implemented new ERP systems based on accounting requirements and user needs, assisting with system builds, testing and deliverables.

Technology Used: - MERN STACK  
My Role: - Frontend Developer, UI Design
